Name	Photo	Specification	Price	Brochure
KOLD S ELECTRONIC POLISHED		Mazzer Kold S is built following a cool, sleek and forward-looking design. It conveys cutting-edge technology and premium quality. The Mazzer Kold S is, with Robur S, the fastest grinder in the product line (1s/5g @50Hz, 1s/6g @60Hz). Besides excellent performances in terms of consistency and retention, Kold S is designed to protect coffee against exposure to heat even should grinding times be extended, thanks to a specific mechanical construction with a belt-driven transmission, to low RPM and to a double cooling system.	IRR 2,220,000,000	Download link
KOLD S ELECTRONIC BLACK		Mazzer Kold S is built following a cool, sleek and forward-looking design. It conveys cutting-edge technology and premium quality. The Mazzer Kold S is, with Robur S, the fastest grinder in the product line (1s/5g @50Hz, 1s/6g @60Hz). Besides excellent performances in terms of consistency and retention, Kold S is designed to protect coffee against exposure to heat even should grinding times be extended, thanks to a specific mechanical construction with a belt-driven transmission, to low RPM and to a double cooling system.	IRR 2,120,000,000	Download link
KOLD S ELECTRONIC WHITE		Mazzer Kold S is built following a cool, sleek and forward-looking design. It conveys cutting-edge technology and premium quality. The Mazzer Kold S is, with Robur S, the fastest grinder in the product line (1s/5g @50Hz, 1s/6g @60Hz). Besides excellent performances in terms of consistency and retention, Kold S is designed to protect coffee against exposure to heat even should grinding times be extended, thanks to a specific mechanical construction with a belt-driven transmission, to low RPM and to a double cooling system.	IRR 2,120,000,000	Download link
ROBUR S ELECTRONIC BLACK		The Mazzer Robur S is a conical burrs grinder much favored by bartenders having to deal with large daily volumes and workloads. Average grinding speed is 1s/5g @50Hz, 1s/6g @60Hz. Consistent dosing, uniform coffee grounds, low retention and advanced electronics' functionality. It is pre-set for connecting to cloud (IoT), thus opening the way towards a whole spectrum of possibilities.	IRR 1,860,000,000	Download link
KONY S ELECTRONIC BLACK		The Kony S is designed to enhance the aroma of your coffee. The distinctive Mazzer design spotlights precision machined components and high-tech electronics. It's equipped with 63mm conical burrs and works at a low speed of 420 rpm @50Hz and 500 rpm @60Hz. Kony S features excellent dose consistency, IoT connectivity, and a mind to barista ergonomics. This is the ideal choice for medium-high volume cafes.	IRR 1,400,000,000	Download link
MAJOR VP ELECTRONIC POLISHED		The Mazzer Major VP is the fastest grinder of the V line. Its innovative technologies allow for higher grinding speeds with lower RPM (revolutions per minute - 900 mmp @50Hz). Thanks to the high torque asynchronous motor the Major VP is designed to grind high volumes of coffee without overheating. The lower-revolution motor results in less noise and a longer lifespan for the grinder and its components.	IRR 1,420,000,000	Download link
MAJOR VP ELECTRONIC BLACK		The Mazzer Major VP is the fastest grinder of the V line. Its innovative technologies allow for higher grinding speeds with lower RPM (revolutions per minute - 900 mmp @50Hz). Thanks to the high torque asynchronous motor the Major VP is designed to grind high volumes of coffee without overheating. The lower-revolution motor results in less noise and a longer lifespan for the grinder and its components.	IRR 1,320,000,000	Download link
MAJOR VP ELECTRONIC WHITE		The Mazzer Major VP is the fastest grinder of the V line. Its innovative technologies allow for higher grinding speeds with lower RPM (revolutions per minute - 900 mmp @50Hz). Thanks to the high torque asynchronous motor the Major VP is designed to grind high volumes of coffee without overheating. The lower-revolution motor results in less noise and a longer lifespan for the grinder and its components.	IRR 1,320,000,000	Download link
MAJOR V ELECTRONIC BLACK		The Mazzer Major V boasts low retention, flexibility to adapt to all situations, and performs well at any time of the day—from the morning rush to regular service. It's the grinder to have when a coffee shop wants to make the leap to the next level. Major V helps baristas complete their daily work with a user-friendly interface, new electronic features, and IoT optional technology.	IRR 1,170,000,000	Download link

There is more to life than coffee, but it's a great place to start!
 And wherever there's good coffee, PUQpress isn't far behind. Actually we're right up there – on the bench next to the espresso machine. The Robin to the barista's Batman.
 In baristas we trust
 But we wanted baristas to be able to trust us.

The Kinu line of high-end, stainless-steel single dose manual coffee grinders is a reliable and efficient option for coffee enthusiasts and professionals alike. These grinders use a unique Morse cone principle and full metal construction, which results in the automatic centering of the burrs. This innovative design allows for a consistent and precise grind every time. The thumb stopper ensures easy handling and comfortable operation.

Featuring 47mm professional grade conical burrs, these grinders are designed for fast and efficient grinding. The burrs are Black-Fusion treated, which ensures their longevity and optimal performance. All plastic parts of the grinders are made of Food-Safe ABS, ensuring that they are safe and durable devices for everyday use.
